

Senior Software Engineering student at Istanbul Atlas University (2022–2026), with a background in iOS development and AI/ML. Currently focused on building at the intersection of artificial intelligence and product.

EDUCATION

B.Sc. — Software Engineering, Istanbul Atlas University (2022–2026)
CS50xTürkiye Campus Ambassador (2025-2026)

WORK EXPERIENCE

- **Software Engineer Intern** - Kordoba Development Academy July 2025 - August 2025
- **Software Support Intern** - IT Now Information Technologies July 2024 - August 2024
- **Sales Consultant** - Inditex Group June 2023 - August 2023

SKILLS

- **Software:** Swift, Python, HTML/CSS
- **AI/ML:** Transfer Learning, Image Classification, Neural Networks (MLP), RAG
- **Tools:** Xcode, Git, Jupyter Notebook, TensorFlow/Keras
- **Languages:** Turkish (Native), English (Native), Tagalog (Advanced)

PROJECTS

Chatbot Using RAG

RAG-based chatbot answering queries from Tesla, NVIDIA, Amex, and Apple annual reports using vector embeddings and context-aware generation.

Plant Disease Detection — TÜBİTAK 2209-A

Computer vision model detecting tomato plant diseases via drone imagery. Accepted and funded by TÜBİTAK 2209-A.

Film Genre Classification (MLP)

MLP built with TensorFlow/Keras classifying movies into 5 genres from numerical metadata. 49.54% accuracy — 2.5x above random baseline.

Movie Searcher (iOS — SwiftUI)

iOS app for searching films and fetching details from the IMDb API.

CERTIFICATES

- **Google Project Management Certificate** - Google / Coursera (Foundations of PM, Project Initiation, Project Planning, Project Execution, Agile PM)
- **Machine Learning Specialization** - DeepLearning.AI / Stanford University (Coursera, July 2025)(Supervised ML, Advanced Learning Algorithms, Unsupervised Learning & RL)
- **SwiftUI ile iOS Mobil Geliştirme** - BTK Akademi
- **Swift ile iOS Programlama** - BTK Akademi
- **Clean Code** - Udemy
- **Siber Güvenliğe Giriş** - BTK Akademi
